PUBLIC REPORT

—OF A—

POLICEMAN.

I have not enjoyed good health for several years past, yet have not allowed it to interfere with my labor. Every one belonging to the laboring class knows the inconvenience of being obliged to labor when the body, from debility, almost refuses to perform its daily task. I never was a believer in dosing with medicines; but having heard the VEGETINE spoken of so highly, was determined to try it, and shall never regret that determination. As a tonic (which every one needs at some time) it surpasses anything I ever heard of. It invigorates the whole system; it is a great cleanser and purifier of the blood. There are many of my acquaintances who have taken it, and all unite in praise of its satisfactory effect.

Especially among the aged class of people, it imparts to them the one thing most needful in old age—nights of calm, sweet repose, thereby strengthening the mind as well as the body. One aged lady, who has been suffering through life from scrofula, and has become blind from its effects, having tried many remedies with no favorable result, was induced by friends to try the VEGETINE. After taking a few bottles, she obtained such great relief that she expressed a wish for her sight, that she might be able to look upon the man who had sent her such a blessing.

Yours respectfully,

O. P. H. HODGE, Police Officer, Station 6,
BOSTON, Mass., Ma, 9, 1871.

HEARTFELT PRAYER.

ST. PAUL, Aug. 22, 1864.

H. R. STEVENS, Esq.:

Dear Sir—I should be wanting in gratitude, if I failed to acknowledge what the VEGETINE has done for me. I was attacked about eleven months since with Bronchitis, which settled into Consumption. I had night sweats and fever chills; was distressed for breath, and frequently spit blood; was all emaciated, very weak, and so low that my friends thought my case hopeless.

I was advised to make a trial of the VEGETINE, which, under the providence of God, has cured me. That he may bless the use of your medicine to others, as he has to me, and that his divine grace may attend you, is the heartfelt prayer of your admiring, humble servant, BENJAMIN PETTENGILL.

P. S.—Mine is but one among the many cures your medicine has effected in this place. B. P.

MAKE IT PUBLIC.

SOUTH BOSTON, Feb. 9, 1871

H. R. STEVENS, Esq:

Dear Sir—I have heard from very many sources of the great success of VEGETINE in cases of Scrofula Rheumatism, Kidney Complaint, Catarrh, and other diseases of kindred nature. I make no hesitation in saying that I know VEGETINE to be the most reliable remedy for Catarrh and General Debility.

My wife has been troubled with Catarrh for many years, and at times very badly. She has thoroughly tried every supposed remedy that we could hear of, and with all this she has for several years been gradually growing worse, and the discharge from the head was excessive and very offensive.

She was in this condition when she commenced to take VEGETINE; I could see that she was improving on the second bottle. She continued taking the VEGETINE until she had used from twelve to fifteen bottles. I am now happy in informing you and the public (if you choose to make it public) that she is entirely cured, and VEGETINE accomplished the cure after nothing else would. Hence I feel justified in saying that VEGETINE is the most reliable remedy, and would advise all suffering humanity to try it, for I believe it to be a good, honest, vegetable medicine, and I shall not hesitate to recommend it.

I am, &c., respectfully,

L. C. CARDELL,
Store 451 Broadway.

VEGETINE acts directly upon the causes of these complaints. It invigorates and strengthens the whole system, acts upon the secretive organs, allays inflammation, cleanses and cures ulceration, cures constipation and regulates the bowels.

Has Entirely Cured Me.

BOSTON, October, 1870.

MR. STEVENS,:

Dear Sir—My daughter, after having a severe attack of whooping cough, was left in a feeble state of health. Being advised by a friend she tried the VEGETINE and after taking a few bottles was fully restored to health.

I have been a great sufferer from Rheumatism. I have taken several bottles of the VEGETINE for this complaint, and am happy to say it has entirely cured me. I have recommended the VEGETINE to others, with the same good results. It is a great cleanser and purifier of the blood; it is pleasant to take; and I can cheerfully recommend it.

Newport Daily News.

SATURDAY, JULY 10, 1875.

THE SEASON.

*** Costly lumber—Summer board.

*** Visitors at Cape May are tardy.

*** The Surf House, Fire Island, is filling up rapidly.

*** Summer hotels are increasing on the north side of Long Island.

*** More New Yorkers going to the New England resorts than ever before.

*** Score 1500 guests for Saratoga, so quick. How's that, Long Branch?

*** It is interesting to know that the newest sashes are of white satin embroidered with gay colored flowers.

*** Baltimore belles at Stockton House and Philadelphia belles at Congress Hall, Cape May. A "dress war" at once.

*** Balls and hops will be given on Monday night at nearly all the leading watering place hotels throughout the country.

*** The hotels at Cape May and Atlantic City have had numerous arrivals of late, and now both places begin to "look like old times."

*** Daniel Dougherty, of Philadelphia, "the silver tongue lecturer," is at his cottage at Long Branch, and drives a very fast team of bays.

*** The season at Sharon has opened auspiciously, and the hotel keepers, who contemplated reducing terms, have decided to adhere to last year's prices.

*** Swampscott has no reason to complain, for a larger number of people have arrived thus far than at any corresponding period last year.

*** On account of the eating away of the rocks, the cave of the winds, at Niagara, extends back ten feet farther this year than last.

*** From Catskill come encouraging accounts. The Mountain House has 200 guests, and they are coming all the time. The Prospect Park House is about half full.

*** Bathing suits of Turkish toweling are something new. They are intended for ladies only, we are told, and are very handsomely embroidered in colors.

*** Cottage people at Long Branch do not "intermingle" for reasons which are best known to themselves. There is an affectation of formality among them quite amusing when things are taken into consideration.

*** West Point has a longer season than most places. During June, while the examination of the graduates is in progress, Cozzens's Hotel is crowded; so is it late in September, when tourists return from afar and desire to be in the country, yet near the city.

*** The President's is the only four-in-hand at Long Branch, Pierre Lorrillard, John Hoey and young Mr. Murphy drive the dog carts, and Edwin Adams and Mr. Lewis Brown the "fast trotters."

*** Niagara, with its Indians and hackmen, is doing very nicely for several days, and on the Fourth it is expected that it will be necessary to "colonize."

*** Saratoga visitors may now be numbered by the thousand, and the American Ems is becoming very gay and lively. There will be hops at all the leading hotels there on Saturday and Monday nights.

*** The Summer capital is now more than ever an appropriate title for Long Branch. Not only is the head of the nation there, but the governor of the state of New York, the Hon. Samuel J. Tilden, has selected it for his Summer resting place. He is at Howland's Hotel.

*** Tourists are increasing in numbers in the White Mountain region every day, the Glen House having the largest number of names on the register thus far. The old fashioned Concord stages are in use again this season.

*** The funny little lady from Brooklyn has arrived at Saratoga, and this will make her twenty second season. She gets up at five o'clock in the morning and drinks the waters until six, when she goes to bed again. The local doctors say she is a perfect mint.

*** Hay-fever and rose-cold pilgrims are moving in large bodies in the direction of Watch Hill, where one of the finest beaches in the world (excepting William A.) can be seen. The waves come roaring in here in the manner described by writers in weekly story papers.

*** The hotel bands are now at Long Branch. Time was when brass bands filled the air with discordant sounds from pagodas in front of the house, but now the music is simply that of a small sized string band or "parlor orchestra."

*** The Oceanic, Isles of Shoals, is now open and attracting a large share of the patronage annually bestowed upon this charming place. The house is first class in every respect and deserves the success and popularity it is now enjoying.

*** The United States Hotel, Long Branch, rents for $11,000 for the season of four months. When it is considered that the "paying season" is barely six weeks, it will be seen what opportunities for getting rich a Long Branch hotel keeper has. The hotel is owned by a Catholic priest, Father McMahon.

*** Catskill Mountain tourists are very numerous, and the Mountain House is nearly full, notwithstanding the fact that the annual bear story has not yet been started. The man at the Kaaterskill falls has let the water on, and is taking up the customary collection in his hat.

*** The Gregory House, which is under the personal supervision and management of Mr. Gregory, the owner, this season, is filling up rapidly, and it is gratifying to know that the old patrons and *habitues* are returning. This is one of the most beautiful and attractive Summer resorts within a hundred miles of New York.

*** Hon. August Belmont and family have arrived at Saratoga, and taken the cottage he had engaged at the States for the season. The Swedish and Turkish ministers have engaged cottages at the United States. The Portuguese minister is now in occupancy of one.

*** A man walked into the office of a Long Branch hotel the other day and actually had the audacity to address the elegant clerk by his first name. Two call boys fainted away, the porter went into spasms and the offender himself was carried out frozen stiff as an icicle, but the gorgeous young man simply gave his mustache an additional twirl, and went on just as if nothing had happened.

*** The Summering places of several Brooklyn divines are here appended: The Rev. Dr. Storrs will go to Lake George: the Rev. J. Hyatt Smith will go to Windham, in the Catskill; the Rev. William H. Leonard to Lake Mohonk and the Shawangunk Mountains; Bishop Littlejohn will spend the Summer in Suffolk county, L. I.; the Rev. Dr. Hall of Trinity, goes to Stamford; the Rev. Dr. Inglis goes to the Catskill; H. W. Beecher, as usual, will go to the White Mountains; the Rev. Dr. Buddington to Lake George; the Rev. T. DeWitt Talmage to Eastampton, L. I.; the Rev. John Chadwick to Marblehead, Mass.

THE NEWPORT DAILY NEWS AND THE NEWPORT JOURNAL.

The NEWPORT DAILY NEWS is published every afternoon, except Sundays, at the News Building, 13 Church street by Davis & Pitman.

The NEWPORT JOURNAL is published at the same office every Thursday morning, and contains a selection of the best matter in the Daily, including Editorial Discussions of the topics of the week, Literary Miscellanies, and at least one good Story, the Latest Markets, and a complete and comprehensive Summary of the news, local and general. The JOURNAL is a large 36 column paper and contains 50 per cent. more reading matter than any other paper in the south part of the state.

Complaints regarding the irregular or improper delivery of either paper should be sent to the office at once.

ADVERTISING RATES.

Ordinary Advertisements, $1 a square, for the first insertion, and 25 cents for each continuance: Ten lines or less, in this type, make a square. Advertisements in Reading matter is charged for, at 50 per cent extra. A discount on these rates is allowed on all advertisements ordered for one week or longer. Funeral Notices 50 cents each. Notices of marriages and deaths free. Yearly advertisers are limited to their immediate business and are allowed twenty-five changes a year.

Subscribers occupying cottages north of Webster street and south of Bliss road will be served each afternoon by carrier. Those living beyond these limits will receive the paper through the postoffice, or by any other means they prefer. DAVIS & PITMAN, 13 Church street

THE DAY.

The potato bug has reached Bristol, and Rhode Island farmers will have hard work next year to save their tubers.

The American marksmen have left Belfast for Scotland. They have declared all team matches off, and have accordingly declined an invitation to compete with eight picked shots from the United Kingdom.

Two men jumped on an engine on the Vandalia Railroad on Thursday night, ran that and the express car two miles, shot the engineer and then made an unsuccessful attempt to kill the express messenger and rob the car.

We are glad to see that the Richmond Enquirer disapproves of Gen. Preston's recent fire-eating speech. We hope the Enquirer expresses Southern sentiment when it says: "While the college commencements elsewhere throughout the country are instinct with peace, tolerance and good-will, it is a shame that our leading Southern university should even for a day be prostituted to uses which every sensible Virginian condemns." The Lynchburg Virginian says, "We are glad to learn that the sentiments of Gen. ... not received with favor by ... elegantly expressed, were they were addressed, and do not indicate the opinions of the sound-thinking people of Virginia and the South."

GEN. BLAIR.

Gen. Frank P. Blair, Jr., is dead. It is difficult to accurately estimate his character, for he had the misfortune, or the folly, to change his political creed at a time when party disloyalty and national disloyalty were looked on by Republicans, at least, as nearly synonymous. He began life as a Democratic lawyer, but as the agitation of the slavery question increased in violence he joined the Free Soil party and established the first anti-slavery paper in a slave state. In his paper he worked earnestly and with much success in opposing slavery. He was elected to Congress as a Republican in 1856, but was defeated in 1858. He was re-elected in 1860, 1862 and 1864. Being in the army he never took his seat under the last election. He entered the army as colonel in 1862, at the solicitation of Mr. Lincoln and Mr. Stanton, and was made major general a few months later. In 1864 he was a corps commander. His military career was honorable to him, and if he was a political general, as Gen. Sherman has alleged, it didn't prevent his being brave and energetic. Like several other men he incurred the violent hostility of the Republican party by a decided opposition to the reconstruction act, and allowed his disapproval of the course of Congress under Johnson's administration to carry him over to the extreme wing of the Democracy, and was nominated for Vice President in 1868 with Horatio Seymour. In 1870 he was elected Senator to serve out an unexpired term which ended in 1873. His health prevented his taking an active part in politics during this time. Twenty five years hence his "apostacy" will probably be looked on more kindly and justly than it is now when the bitterness of the Johnson period remains in the memories, if not in the feelings, of men. Gen. Blair died at the age of fifty five, after a long illness, and leaves a family.

PERIODICALS.

Postal Guide.

The July number of the "United States Official Postal Guide" closes the first year of this useful publication, and confirms the good impression which the previous numbers have made. Besides its alphabetical list of all the post offices in the country corrected up to date, it gives the very important new information respecting foreign mails which results from the recent treaty. The matter here given is the official publication, is very full and comprehensive, and invaluable to all persons having foreign correspondence. The number contains also the rulings of the Post Office Department during the last quarter, and a revision of all the regular matter which accompanies the Guide. This publication has taken an important place as an official, authentic, and accurate guide to the minute and widespread organization which carries and brings the letters, papers, and other mail-matter of a great country; and the circulation of the work has already served to diminish the vexatious correspondence with the department, which has been necessary hitherto in the absence of any official guide. Subscriptions are received both at the post offices and by the publishers, H. O. Houghton & Co., Riverside Press, Cambridge, Mass.

Harper's Magazine for August 1875.

Harper's Magazine for August is a brilliant number. The last contribution in the number—Mr. Longfellow's poem—is by no means the least important. This poem, occupying five pages of the magazine, where it is published by arrangement with the author, was read on the occasion of the fiftieth anniversary of the graduation of the class of 1825 in Bowdoin College. Among the members of that class, besides Mr. Longfellow, were the Rev. George Cheever, Nathaniel Hawthorne, John S. C. Abbott, Congressman Jonathan Cilley, and J. W. Bradbury, ex-Senator for Maine. The poem is the best of the recent productions of Mr. Longfellow, and for dignity and tenderness of feeling is not surpassed by anything he has ever written. Simply as an example of publishing enterprise, the issue of this poem immediately after its reading is a memorable feature.

The number opens with an exquisit poem by Joaquin Miller, "Sunrise in Venice," beautifully illustrated.

Joseph Cook's long poem, "Ticonderoga and Montcalm" with seven superb illustrations, commemorating the fierce conflicts between the French and English, at Lake George and Quebec, for the mastery of this continent, is a truthful as well as a spirited and beautiful narrative of those grand and decisive events of early American history.

Celia Thaxter and Mrs. S. M. B. Piatt contribute poems to this number. Miss Thaxter's poem, "Submission," is called forth by the recent wreck of the Schiller.

A profusely illustrated paper, by William H. Rideing, gives an interesting history of the growth of that peculiarly American enterprise, the express business.

The Rev. Julius H. Ward describes the beauties of camping out, the social gayeties, and the sportsman's pleasures at Moosehead Lake. His paper is accompanied by twenty-four excellent illustrations, most of them from the characteristic pencil of Augustus Hoppin.

William C. Manning, an officer of the United States army, contributes an exceedingly interesting illustrated paper on the "Ancient Pueblos of New Mexico and Arizona." His description of the dwellings, domestic economy, and religious customs of the Zuñi Indians is novel and entertaining.

Professor Rau's fifth illustrated paper on the Stone Age in Europe is devoted to those most curious of scientific topics—the Kitchen-middens and the ancient lake settlements.

James Parton contributes a paper on "Caricatures of Women," with fifteen illustrations, from Gavarni, Mrs. Trollope, and other sources.

The "First Century" paper, this month, is a comprehensive review, by Francis A. Walker, of the Growth and Distribution of our Population, illustrated with maps. A volume of information is condensed into this article.

Julian Hawthorne's serial story, "Garth," develops in interest with every successive chapter; This novel will place its author first among American story-writers.

Mrs. Spofford and Ella Farman contribute two short stories of thrilling interest.

John Bigelow continues his analysis of Haytian Proverbs.

The editorial departments are up to their usual high standard of excellence.

GOOD SIGNS FROM THE NORTHWEST.

[From the New York Evening Mail.]

Yesterday the Republican state convention was held in Wisconsin and the Democratic state convention was held in Minnesota. We leave to other journals the general discussion of the platforms adopted by these representative bodies of two of the most intelligent commonwealths of the Northwest. What strikes us as particularly notable is the significant fact that both conventions pronounced emphatically in favor of "hard money" and of a "tariff for revenue," the Republican platform holding this language:

> That we favor the early attainment of a currency convertible with coin, and, therefore, advocate the gradual resumption of specie payments by continuous steps in that direction, in such a manner as to disturb the business interests of the country as little as possible.
>
> That we are in favor of a tariff for revenue only, to ... of labor and industry.

The Democratic platform expresses the same sentiments more tersely, as follows :

> Fourth. A return to gold and silver as the basis of the currency of the country, with preparation and effective measures to secure the resumption of specie payments.
>
> Fifth. Tariff for revenue only, consistent with an honest administration; none for protection; no government partnership with protected monopolies.

These two expressions, one Republican and the other Democratic, we consider the most cheering evidences of the enlightenment of these two states, whose influence in the West is out of proportion to their population. That the Republican platform should have been sound on the "Hard Money" issue was to have been expected, although there has been some demoralization in the party in the Northwest on that subject—particularly where Morton, Logan and Ferry have been influential, but the most intelligent members of the party there were sound on this issue, even during the fight over the currency bill. The Western Democrats, however, have been more generally infested with the heresies of the inflationists, and the "short, sharp and decisive" utterance of the Minnesota platform is all the more welcome from its unexpectedness.

So, it is equally refreshing to find a Republican state convention throwing overboard the fallacies of "protection." When the agriculturists of the West join hands with the planters of the South and the best men of the East, in demanding that Congress cease to coddle our "infant industries" and allow to capital the utmost freedom in the choice of investments, the end of a system that is exploded almost everywhere else will be seen to be close at hand. It is true that "protection" has never been formally and explicitly adopted by the Republicans as a national party, but the Pennsylvania influence has been strong enough to coerce Republican Congressmen into the support of protective features in our tariff, and to thus damage and cripple the productive interests of the country. The clear declarations of the Wisconsin Republicans will encourage intelligent Republicans everywhere to rally to the support of the doctrine of freedom of trade, so far as our heavy indebtedness will permit it to be realized, as being peculiarly entitled to the allegiance of the party that has done so much for the cause of freedom in general.

UNBREAKABLE GLASS.—A London correspondent says: Some interesting experiments have just been made with M. F. de la Bastie's valuable discovery that glass can be rendered practically unbreakable by the simple process of plunging it when still at a cherry heat into an oil-bath. The process in no way alters the appearance of the glass, while its properties have undergone a thorough change. Watch-glasses and window panes are thrown into the air and allowed to drop with a crash upon the ground, or trodden under foot with impunity. The only drawback hitherto noticed is that glass thus treated can no longer be cut with a diamond. Glaziers therefore must be constantly provided with a great variety of sizes. There are hopes, however, that some other means of cutting M. de la Bastie's glass will soon be found. If this invention becomes popularized, as there is every reason to believe it will, glass will in a great measure supersede many other materials now in continual use, as for instance china and earthenware in the manufacture of cups and plates. He suggested, too, that it may be used in the place of clay or metal for water-pipes, gas-pipes, and the like, and as a good lining for acid tanks at chemical works. Indeed the uses to which it can be put are innumerable, and the Standard neatly observes that in process of time people will cease to understand the meaning of the old proverb that "those who dwell in glass houses should not throw stones." Although almost unbreakable, M. de la Bastie's glass can be engraved with the sand-blast and ground in the usual manner. The process involves no appreciable difference in prices. There is a well-known passage in Pliny's Natural History respecting the alleged discovery of malleable glass in the reign of the Emperor Tiberius. Pliny himself half doubts the story, to which, however, the facts give an appearance of greater probability than it once possessed.

THE RIVER TIME.

O ! a wonderful stream is the River Time,
As it runs through the realm of tears,
With faultless rhythm and a musical rhyme,
And a broader sweep and a surge sublime,
As it blends with the ocean of years.

How the Winters are drifting, like flakes of snow,
And the Summers—like buds between—
And the year in the sheaf—so they come and they go
On the river's breast, with its ebb and its flow,
As it glides in the shadow and sheen.

There's a magical isle up the River Time,
Where the softest of airs are playing ;
There's a cloudless sky and a tropical clime,
And a song as sweet as a vesper chime,
And the Junes with the roses are staying.

And the name of the isle is the Long Ago,
And we bury our treasures there ;
There are brows of beauty, and bosoms of snow—
They are heaps of dust—but we loved them so !
There are trinkets, and tresses of hair.

There are fragments of song, that nobody sings,
And part of an infant's prayer ;
There's a lute unswept, and a harp without strings ;
There are broken vows, and pieces of rings,
And the garments that She used to wear.

There are hands that are waved, when the fairy shore
By the mirage is lifted in air ;
And we sometimes hear, through the turbulent roar,
Sweet voices we heard in the days gone before,
When the wind down the river is fair.

O ! remembered for aye be the blessed isle,
All the day of our life till night ;
When the evening comes with its beautiful smile,
And our eyes are closing to slumber awhile,
May that "Greenwood" of soul be in sight !

STATE MISCELLANY.

James Gormley, aged 14 years, was killed in Providence Thursday evening, while walking on the track of the Hartford Railroad, being struck by the locomotive of an outward train.

Within the past three months there has passed the Pomham Rock Light station, Providence river, 3596 steam and sailing vessels.

The Odd Fellows dedicated their new hall at Wakefield, Wednesday, large delegations from Providence and Hope Valley attending. The Roger Williams Band, from Hope Valley, were present.

Rev. A. H. Wilcox, whose failing health has compelled him to resign the pastorate of the Congregational church, Westerly, preached his farewell sermon Sunday morning, July 4th. Resolutions expressing the regret of his people for his resignation, and the ill health which caused it, have been placed upon the church records and a copy presented to the retiring pastor. Our whole community suffer a loss in the withdrawal of this eminent Christian from our midst.

The alley tables at the Larkin House, Watch Hill, have been relaid. The cottage south of the Larkin House, commenced last Winter and not yet completed, is being built for Messrs. Barber & Hutchinson. J. L. Howard, of Hartford, Ct., has sold his cottage situated between the Watch Hill House and the Larkin House, and has had another cottage built just south of the other. The new cottage is 25 by 31, one story high, with a Mansard roof.

NEW SHOREHAM.—Cod are quite plenty and they are being rapidly transferred into that "turkey" which has become proverbial. Blue fish have struck in, but they are shy. ... Summer visitors are beginning to arrive quite rapidly, and the prospects are favorable for a prosperous season. The facilities for reaching the island are such that the public can be well accommodated, and be subjected to no delay. There are regular lines from Stonington and Norwich, as well as from Providence. The future of the island, as a watering place, is assured, for it possesses attractions which can be parallelled only in one or two places in the country.

Boiler explosion at Tiverton Wednesday, the 7th, about 1 o'clock P. M. One of the boilers used in the oil factory of L. Brightman & Sons, Tiverton, exploded while the engineer and fireman were at dinner. Fortunately no one was hurt. Had the accident occurred five or ten minutes sooner, the engineer, Mr. Harding, and the agent, H. K. Harding, must have been severely injured, if not killed, as they both were in close proximity to this same boiler. The boiler had been filled with water and the fires "banked" and the steam guage indicated only about 40 lbs. pressure, while the usual working pressure is 80 lbs. The boiler was an upright tubular one and weighed five or six tons. It was thrown from its foundation through the roof of the building into the air 40 or 50 feet, and landed in the river at a distance of 130 feet from its position in the works. The cause of the explosion is considered to be a weak place in the "fire sheet" or lining of the boiler, Mr. Frank Brightman (one of the firm) has arrived on the spot, and commenced operations to have the work refitted at once.

HIS HONOR SETS A TRAP.—"And this is William Spinner, eh?" inquired his honor of a brick-haired young man whose back was covered with mud.

"Yes, sir."

"They found you in an alley; it was night; you were drunk; when they hauled you out you was as ugly and pompous as the king of the Cannibal Islands. Isn't this true?"

"It was my birthday, and I suppose I took a glass to much," replied the prisoner. "It's the last time, however, you will never see me again."

"Let's see—haven't you an old mother to support?"

"Yes—yes sir. She's a good old lady, and she will feel badly about this."

"And you have to support two or three young sisters?"

"Yes, three of them—poor little girls."

His honor removed his spectacles, wiped the apple on his coat sleeve, smiled blandly and remarked:—

"What an awful liar! Why, man, I know all about you! You are one of the greatest loafers in Detroit, and I don't believe you have a relation on earth!"

The prisoner cast his eyes down and could make no reply.

"I'll mark you down for sixty days," continued the court; "that's thirty days in which to get you washed up and thirty more to get acquainted with yourself."—[Detroit Free Press.

THE BAVARIAN KING'S PRIVATE REPRESENTATIONS.—A writer says of King Ludwig, of Bavaria : A few years ago it was the custom of the king to have the Wagnerian operas frequently given in the theatre with himself as the sole spectator. A very selfish procedure, you will say, but then he could afford it. A story is told about two English ladies who once had the honor of being invited to one of these remarkable rehearsals. They had waited several weeks for an opportunity to hear "Lohengrin," which had always been placed on the *repertoire* for Sunday evening, when, being religious people, they could not conscientiously attend. So they wrote to the king's chamberlain, telling him their trouble, asking if his majesty would not permit them to attend one of his private performances of "Lohengrin." The following day came the reply that his majesty granted their request, and on the same evening the ladies were surprised at seeing one of the royal carriages stop before their house. A footman was announced and informed them that he had orders to conduct them to the opera, not only then, but as often as they wished during their stay in Munich. They were shown to seats immediately below but out of sight of the royal box, and were afterwards frequent visitors. Well, in those fancies the king annoyed nobody, and he rewarded the singers in a very handsome manner. The tenor, Nachbauer, the finest delineator of Lohengrin on the German stage, received from him a silver shield, with an emblematic device of the swan carved upon it, and a beautiful silver helmet, likewise crowned with the legendary bird. Fraulein Stehle received many gifts appreciative of her delineation of Elsa.

BUSINESS NOTICES.

AUGUST FLOWER.

The most miserable beings in the world are those suffering from Dyspepsia and Liver Complaint.

More than seventy five per cent. of the people in the United States are afflicted with these two diseases and their effects such as Sour Stomach, Sick Headache, Habitual Costiveness, Palpitation of the Heart, Heart-burn, Water-brash, gnawing and burning pains at the pit of the Stomach, Yellow Skin, Coated Tongue and disagreeable taste in the mouth, coming up of food after eating, low spirits, &c. Go to the Drug Store of James H. Taylor and get a 75 cent bottle, or a Sample Bottle for 10 cents. Try it. Two doses will relieve you.

DIED.

TEW.—In this city, 6th inst., Willie, infant son of Henry and Mary E. Tew, aged 10 months, 3 days.

One more little one
Entereth heaven,
One more angel
To paradise given,
Another soft starlight
Gleams out in the sky,
Another sweet carol
Is heard on high.
Fold the hands mother
Over the breast,
Let the heart that is aching
Quietly rest,
Where the dear one has vanished
At heaven's gate,
There, tearful yet hoping,
Watch and wait.

ELLIOTT.—In New Castle, Indiana, July 6th, Katie Powell Elliot, wife of William H. Elliot, Jr., aged 27 years.

Three Attainable Blessings.

A good appetite, vigorous digestion and sound sleep are three blessings that imply a good many more, and are attainable by the daily use of Hostetter's Stomach Bitters. The stomach that is invigorated by that ruling tonic rapidly disposes of the food committed to it, and at the proper time craves for more with natural earnestness, and the brain from which pain and despondency have been banished by that salutary anodyne and cheering cordial, enjoys at the hour of rest that tranquil, dreamless repose for which no other boon that Providence can bestow can compensate. Besides these most desirable results, the entire physique is strengthened and fortified against the attacks of disease by this splendid vitalizer and protective agent, which, take it altogether, is the most desirable, as it is unquestionably one of the most popular medicines in existence.

How to establish permanent health when the constitution is undermined by dropsy, kidney, bladder and glandular maladies, Bright's disease, retention and incontinence of urine, diabetes, gravel, afflictions of the urino-genital organs, female irregularities, pain in the back and loins, partake occasionally of Hunt's Remedy and all the avenues of health will be restored to action. jy7-1w

Magnetic Cure.

A. S. Hayward, Magnetic Physician, of Boston, has taken rooms at No. 10 Young street, this city. His practice is peculiar to himself, and consists in vitalizing the blood, harmonizing and rejuvenating the entire system, thereby assisting nature in eradicating all forms of curable disease of body and mind. Often by his treatment natural sleep is produced, when powerful opiates fail to produce unnatural sleep. Consultation free. Hours from 9 A. M., to 4 P. M. At other hours will visit patients. jy3-n j-1w

"By their Works ye shall know them !"

The Spencer Optical Manufacturing Company of New York have already made themselves known to thousands of the afflicted, by the perfection they have obtained in the manufacture of the Diamond Spectacles, and by similar works they will yet be known to hosts, who will find in these goods the best possible aid for weak or failing eye-sight. SCHENCK'S SEA WEED TONIC.—In the atmosphere experienced here during the Summer months, the lethargy produced by the heat takes away the desire for wholesome food, and frequent perspirations reduce bodily energy, particularly those suffering from the effects of debilitating diseases. In order to keep a natural healthful activity of the system, we must resort to artificial means. For this purpose Schenck's Sea Weed Tonic is very effectual. A few doses will create an appetite and give fresh vigor to the enervated body. For dyspepsia, it is invaluable. Many eminent physicians have doubted whether dyspepsia can be permanently cured by the drugs which are generally employed for that purpose. The Sea Weed Tonic in its nature is totally different from such drugs. It contains no corrosive minerals or acids; in fact it assists the regular operations of nature, and supplies her deficiencies. The tonic in its nature so much resembles the gastric juice that it is almost identical with that fluid. The gastric juice is the natural solvent which, in a healthy condition of the body, causes the food to be digested; and when this juice is not excreted in sufficient quantities, indigestion, with all its distressing symptoms, follows. The Sea Weed Tonic performs the duty of the gastric juice when the latter is deficient. Schenck's Sea Weed Tonic sold by all Druggists. jy6-1mo

On the first of July, or as near that date as is practicable, all bills due the undersigned will be presented for payment. Presented with the hope that no one will look upon their presentation as a mere custom or form, but rather that they will receive them as being due and payable according to contract. A large number of estimable people among his customers have always looked upon such bills in that way, and it is confidently expected that with the rapid and rocket like progress of our species toward perfection, that others will from time to time form that commendable habit until at last all will see how right and proper a thing it is to do so.

Morrow (formerly of 651 Broadway, New York, and 100 Broadway, Saratoga Springs,) has made arrangements to produce this specialty exclusively for the season at J. A. Williams's gallery No. 2 Downing Block, Bellevue avenue and will give his personal attention to make sittings from life. Copies from cards and other pictures, Views of yachts, buildings &c. The beauty and accuracy of this work and the fact of its being unobtainable in this country, create the astonishment and admiration of all who see them. From one to fifty persons photographed no larger than a grain of sand and inserted in a fine gold charm, pin, ring &c., containing a powerful microscope thus rendering the picture as distinct as life size and enabling one to carry constantly about the person in a little stone or charm those we hold most dear. Newport Daily News.

SATURDAY, JULY 10, 1875.

GENERAL NEWS.

FROM WASHINGTON.

General Spinner's Accounts Proved Exact.

WASHINGTON, July 9.

The full count of the money in the cash vault is complete, and agrees exactly with General Spinner's account of what it contained. Even the estimate of twenty dollars' shortage, made when the currency was counted and gold taken according to the marks on bags, disappeared, and the count came out exact. All the coin that was in any degree worn was actually counted. The new coin was counted by weighing it, and everything proved to a cent. The contents of the vault were about ten millions, of which nearly a million and a half was coin.

The Enforcement of the Revenue Laws.

It has been reported that there was trouble between the Treasury and the collector's office in New York over the enforcement of the new rules in regard to fashionable smuggling. There is, however, full accord between the Secretary and the collector, and the latter is showing great efficiency in carrying out the views of the department in regard to the collection of revenue.

Retirement of National Bank Notes.

The comptroller of the currency desires to retire all circulating notes of the denomination of $5 of the following banks, the notes of that denomination having been successfully counterfeited: The First, Third and Traders' National Banks of Chicago, the First National Bank of Paxton, Ill., and First National Bank of Canton, Ill. National banks throughout the country are requested to return all notes of these banks of the denomination of $5 to the Treasury for redemption, and no additional issues of this denomination will hereafter be issued to these banks.

Delano.

Secretary Delano returned to his duties at the Interior Department today.

Sales of Postage Stamps

A statement of the issue and sale of stamps and stamped envelopes for the past year shows an increase of nearly six per cent over 1874. The increase in the sale of postal cards has been over eighteen per cent. in the same time, and the increase in the total issues to the public has been over ten per cent.

Counterfeiters Arrested.

The Treasury secret service division has received information of the arrest at Oroville, California, of Montroni Sebastiano and Augustina Buazzi, two members of the notorious Marysville gang of counterfeiters.

Resignations Accepted.

The resignations of H. S. Munson, of Connecticut, and M. B. Phillip, of Ohio, principal examiners of the patent office, were accepted today.

INCREASING SUCCESS OF THE OLD COLONY LINE.—The opening of several new branches connecting with places of interest has greatly increased the travel on the main road, the branch leading from Harrison's square through the 16th ward opening a beautiful section of the city for residences. The reopening of the branch to East Milton and the Quincy quarries, over the line of the first railroad built in America, the South Shore, Cape Cod, and various other routes have opened places of interest and rural picturesqueness which have greatly increased the travel and business of the road. Within ten years the travel of the roads has increased from 33,000,000 to 70,000,000 passengers, carried one mile. The company has the new patent air brake on all but eight of its 195 passenger cars, placing each train under the entire control of the engineer. These, with the station signals now adopted, well nigh preclude the possibilities of accidents from collision. The magnificent line of steamers which ply daily between Newport and New York is now connected by the railroad, forming one of the safest and most complete lines connecting the two cities. The steamers Bristol and Providence, for gorgeous style and solid comfort, stand with scarce a rival. As a result of the enterprise, shown in the policy of the road, several new villages have grown up within the past five years, numbering from 1000 to 5000 inhabitants, as at Wollaston Heights and Oak Bluffs. The directors of the road were extremely fortunate in securing Mr. J. R. Kendrick as its superintendent, who has successfully studied the safety, comfort and wishes of the patrons of the road.

A thousand newspapers have failed in this country the past year, involving a loss of $8,000,000, the largest of which was that of the Republic in New York, $500,000. It isn't so easy to start a newspaper and keep it agoing as many people imagine.

PALACE HOTEL,

SAN FRANCISCO.

Summer and Winter Resort.

The thermometer at San Francisco ranging in Summer from 60 to 70 degrees Fahrenheit, and in Winter from 50 to 60, the climate is of the most salubrious character, giving to travellers a most cheering welcome at any season that they may arrive.

PALACE HOTEL,

350x275 feet, covers 96,250 square feet of land, making it the

Most Spacious Hotel in the World.

Its commodious and elegant character is assured by the fact that, in the inception of the enterprise, the owners, WILLIAM C. RALSTON, Esq., and Hon. WILLIAM SHARON, instructed their architect to visit the hotels of the principal cities in the United States and Europe for the express purpose of including in the plans of the PALACE all existing improvements, and such additional ones that experience and observation had suggested, they desiring it to be a

Palatial Hotel in Every Respect.

The location is THE BEST IN THE CITY, being at the junction of the

Main Thoroughfares.

The PALACE is seven stories high, most substantially built, and is

Fire-proof in all Essential Points.

The lower story is 25 feet high, the others 14 and 16 feet.

All walls and petitions throughout the Hotel are built of Stone and Brick, laid in Cement, and banded together with Iron.

There are Three Inner Courts,

the centre one being 144x84, covered with glass at height of building, with Carriage and Promenade Entrance from the street of 44 feet width, and having a Circle Driveway of 54 feet diameter, that being surrounded by a marble-tiled Promenade and a

Tropical Garden,

Having Exotic Plants,

Statuary, and Fountains.

Fronting the Centre Court from every story, and upon its entire boundary, there are

Verandas, 12 feet wide, Illuminated by Standard Lights

at each pillared section, and from the Garden Level to the Veranda of the second floor is an Elegant Staircase, ornamented at its various landings with Statuary and Flower Vases. Midway up this staircase is the approach to the

Music Pavilion for the use of the Instrumental Band

(to be exclusively employed in the Hotel.)

From the Centre Court is the Main Entrance to the Hotel Office, that room being 55x65, as also entrance to

Breakfast Room, 110x55;

Dining-Room, 150x55;

Ball and Music Room, 65x55;

Ladies' Reception Room, 40x40;

Reading Room, 40x40;

Committee Rooms,

and other general apartments, used in common by hotel patrons, all these rooms having other convenient entrances.

On Second Floor are

Ladies' Drawing Room, 81x40; Children's Dining Hall and Private Dining Rooms.

The rooms for guests are equally well finished and furnished, and arranged for use, either singly or in suites of two or more, they being so approached and connected that a suite of any number can be had, possessing

All the Advantages of a Private Dwelling.

All Outer Rooms have a Bay Window, and every room a Fire-place, a Clothes-closet, and Toilet Room, and to every two rooms there is a

Bath Room.

The total number of rooms in the PALACE, above the Garden Floor, exclusively for the use of guests—most of them being 20 feet sqare, and none of less size than 16x16—are 755.

Each floor has its

Own Annunciator

with its special service in constant attendance, also a tube receptacle for

Letters for Post-Office,

all leading to the main Letter Box in the General Office. There is a

Pneumatic Dispatch Tube,

by which messages and parcels can be instantaneously sent to any point on the different floors.

All the rooms have approach or entrance from the Arcades, furnished by the existence of the three Inner Courts, thereby giving to all interior rooms

Fresh Air and Sunlight.

The system of Ventilation applied to all the rooms, including the Bath and Toilet rooms, is perfect, there being a total number of 2,042 Ventilating tubes opening outward on the roof of the Hotel; each one coming from some particular room or closet. And for each room there is special provision made to admit the fresh air.

Upon the Garden Floor of the Palace there is an Arcade Promenade,

12 feet wide, with entrances to all of the stores under the Hotel, each one having a Show Window upon the Promenade,

The Palace Hotel is Elegantly Furnished,

equally well upon every floor, and is complete in extent of detail as the comfort of patrons can desire. In addition to being Fire-proof, as mentioned, the arrangement for protection against fire is perfect, the Hotel having

Four Artesian Wells,

a Reservoir under the garden plot—holding capacity being 630,000 gallons—Steam Engines, Steam Pumps, and a supply of 14,570 feet of hose, which, with

Fire Apparatus Complete,

is located at convenient stations upon each floor of the building.

In every room and passageway throughout the Hotel there is a thermostatic bulb, by which an extra degree of heat existing will be announced at the general office, upon a dial, stating the exact locality, making thereby a

Complete Fire Alarm Guard.

The Watchman's Tell-tale Indicator,

in the office, faithfully reports the intervals of the watchman upon his regular rounds, both day and night, and in other respects indicate the method and manner of his attention to duty.

There are Five Elevators and Seven Stairways

leading from Garden Floor to the Upper Story. There is a Solid Iron Staircase, enclosed by brick, which leads from basement to upper story, having openings only on each floor.

The Elevators are worked by Hydraulic Power, and while the most desirable speed is attained they are securely safe and noiseless, and in every way free from all the objections that have heretofore prevailed with similar conveyances.

The Salubrious and Equable Character of the Climate,

(the thermometer at San Francisco, in Summer, ranging from 60 to 70 degrees Fahrenheit, and in Winter from 50 to 60 degrees,) extend such an inviting welcome to travellers, that every endeavor has been made to have the PALACE fully harmonize with it in its attractive features, by combining the comforts and conveniences of American and European hotels, with the greatly prized luxuries of Oriental life.

Tax Assessors' Notice.

THE ASSESSORS OF TAXES, of the city of Newport, hereby give notice that they will be in session at the City Hall, each day, (Sunday excepted,) from Monday, July 19, 1875, to Thursday, July 29, 1875, inclusive, from 9 o'clock, A. M., to 12 o'clock M., and from 2 o'clock to 5 o'clock P. M., for the purpose of assessing and apportioning on the inhabitants of said city and rateable property therein, the tax ordered by the City Council to be levied on the 15th day of June, 1875. Every person, (AND ESPECIALLY EXECUTORS, ADMINISTRATORS, TRUSTEES, GUARDIANS,) and body corporate liable to taxation in said city, is hereby notified and required to bring in unto said Assessors within the time and at the place aforesaid a true and exact account of all his or their rateable estate or property held in trust by them, describing and specifying the value of every parcel of his or their personal estate.

The Revised Statutes of Rhode Island provide that "Every person bringing in any such account, shall make oath before some one of the Assessors that the account by him exhibited contains to the best of his knowledge and judgment a true and full account and valuation of his or their rateable estates, and whoever neglects or refuses to bring in such account, if over taxed shall have no remedy therefor.

Newport Daily News.

SATURDAY, JULY 10, 1875.

EX———DAS.—This is from a ravishing fashion article on stockings in the Home Journal: The Paris shops are full of the fanciful designs in this one detail of feminine attire. They are made in cream color, lemon color, orange yellow, straw color, pink; pale blue, pale green, lilac, light brown, dark brown, crimson, scarlet, purple—in short, in every shade of every color. But the precise tint is only half the question; the designs worked upon the stockings are by far the most important part of it, as regards fashion, and these are of the most varied description. One pair of stockings which excited much admiration from the passers of a certain well-known shop in Paris was in lemon color, and the instep of each foot was covered with bunches of black currants, with their twigs and leaves, most delicately embroidered in the colored silks. Another example of ornamentation lay close at hand, in the form of a black silk stocking, round the leg of which a garland of pink rosebuds and leaves winding upward from the ankle was exquisitely embroidered. This last fashion is very popular just now. Stockings so embroidered are, of course, enormously dear. Few women can afford to buy many such expensive articles of dress as these garlanded stockings; therefore it becomes a matter of eager competition among the leaders of fashion to secure as many specimens of the last rage as their purses will allow. The mania is installed, and henceforth the woman of the world takes rank according to her stockings. Garlands of flowers do not hold the field alone, it must be observed. In some cases inscriptions and devices are embroidered round the leg of modern stockings, and rows and patterns are worked in colored silk stars or spots. The ground, however, of all this work must, on no account, be white.

Scrofulous Catarrh Cured.
LETTER FROM
MRS. JAMES STOPFORD, OF NEW BEDFORD.
(From Providence Journal.)

To the Editor of the Journal:—
DEAR SIR:—Will you please print this letter in the Journal, that everybody may know of my great cure, and the afflicted be able to be benefited by the knowledge. Scrofulous Catarrh of the worst form afflicted me several years and everything I tried to do for it did no good. My throat was badly diseased and a portion of the roof of my mouth was destroyed. Large quantities of green yellowish matter, mixed with blood, came from my head and throat, which was nauseating and disgusting in the extreme. I could scarcely talk so as to be understood, had very little appetite, and when I had, could not swallow anything except very soft food, and my health was greatly reduced, and I was failing fast, when last Spring I read in the Journal about the cure or Mrs. F. Bryant, of Fall River, by Dr. W. H. CARPENTER, at 51 Dorrance street, Providence, which gave me hope, for I thought if she could be cured of Catarrh and Scrofula after a part of her nose and throat was destroyed, there was some hope for me. So I went to Providence and placed myself under Dr. Carpenter's treatment, and thanks be to God, I am cured of that dreadful disease. My head and throat are both well and sound. No discharges or soreness. My appetite is good, my health wonderfully improved, and in truth about as good as ever, which greatly surprises my friends and neighbors, who thought I could not be saved, and that I was foolish to go away from home to be doctored, but since my recovery several of them have gone themselves to Providence to be doctored by Dr. Carpenter.
Shall be pleased to impart any information respecting my case to any person interested, if they will call at my residence. MRS. JAS. STOPFORD,
33 Austin street,
New Bedford, June 17

Newport Testimony.

STATEMENT OF MR. G. F. RICKETSON OF TIVERTON.

Mr. Editor:—Please state my case in your paper for that such cures can be performed, should be known. Catarrh with all its disagreeable symptoms afflicted me for years and until dyspepsia and indigestion resulted. I was fast running down for I could not eat anything that agreed with me, and I did not know what to do for folks said "Catarrh could not be cured, and you are foolish to throw away your money," &c., but I had to do something and I went to Dr. Carpenter. He cured me, I have been perfectly well the last few months, and have no reason to think, I shall ever have any more trouble of that kind. I want it known for so many persons think Catarrh cannot be cured.
GEO. F. RICKETSON, 2d
With Capt. Joseph Church, Tiverton.
Newport, May 15, 1875.

TESTIMONY OF MRS. JOHN W. DAVIS OF NEWPORT.

My grandson, Burnside, (son of Mr. Benjamin Davis) was sadly afflicted with Catarrh. Besides the annoying and disagreeable symptoms usually accompanying this loathsome disease, his memory was becoming impaired. He paid little attention to what was going on around him, or what was said to him; did not take much interest in anything, and was gradually losing his hearing. We felt that something must be done to save him, and therefore placed him under Dr. Carpenter's treatment, which proved successful and satisfactory. He is restored to health, both mentally and physically, and to use his own words, is "A NEW MADE BOY." We feel it a duty to make the case public, that others may know where they can obtain relief from that dreadful disease. MRS. JOHN W. DAVIS.
Bay View avenue, April 29th, 1875.

STATEMENT OF MR. G. E. HULL

This may certify to Dr. Carpenter's success in treating my daughter who had become so deaf from catarrh that we were obliged to speak very loudly to her, to make her hear us. We found that she might become totally deaf, the way she was going on. Dr. C.'s treatment has removed the catarrh and deafness to such an extent, she can now hear a whisper. This case is well known in Jamestown, where we reside.
G. E. HULL.
Newport, April 15th, 1875.

Mr. Arnold's Card.

DR. CARPENTER,—Dear sir: your treatment for chronic catarrh in my case has been successful, although the complaint was of some years standing and had begun to impair my hearing. I think I am perfectly cured and recommend similar sufferers to apply to you. I reside in Jamestown.
F. A. ARNOLD.
NEWPORT, R. I., April 1st, 1875.

Testimony of Captain Hammond of Newport.

W. H. CARPENTER, M. D.,—DEAR SIR:—Allow me to thank you, through the NEWS and JOURNAL, for the great benefits conferred upon me by your treatment for Chronic Catarrh. Five weeks ago, when I consulted you, I was prostrated and nearly worn out with that terrible disease. Under your treatment I began to improve at once, and in two weeks was able to resume my employment, and have continued to improve up to this time. Yours Sincerely,
J. F. HAMMOND,
Newport, March 18, 1875. No. 5 Brinley street.

TESTIMONY OF MR. F. M. HAWLEY OF PROVIDENCE.
(From Providence Journal.)

W. H. CARPENTER, M. D.—Dear Sir: Your treatment of my wife for Chronic Catarrh has been attended with the happiest results, and I deem it a duty as well as a pleasure to tender you our thanks publicly, that other sufferers may be induced to apply to you. We believed the disease incurable, and should not have consulted you had not a friend informed us of the success that attended your treatment of her, it a very aggravated case. Yours, gratefully,
FREDERICK M. HAWLEY,
With J. B. Barnaby & Co., corner North Main and College streets,
Providence, April 5th, 1875.

CERTIFICATE OF MR. JOHN CASWELL.

NEWPORT, R. I., Dec. 12, 1874.
TO THE EDITOR OF NEWS:—I wish to recommend Dr. Carpenter's treatment to such of the community as have Scrofula. I inherited it, and it has always run in my blood, and last Fall it became terrible, injuring my health, and attacking my head and face particularly and so disfigured me that a neighbor that met me did not know me until I spoke to him. I applied to Dr. Carpenter, at the Perry House, and his medicines have met with gratifying success. My health is now good, have very little trouble with the humor, face looks natural, and I hope with a little more treatment, to eradicate the poisonous humor from my system entirely. I reside in Middletown,
JOHN CASWELL.

Catarrh and Polypus.
Home Testimony.

NEWPORT, R. I., Nov. 6th, 1874.
This is to proclaim what Dr. Carpenter has done for me. I suffered from Catarrh 40 years, and the last 10 years my nasal passages were filled with Polypus. I employed physicians from time to time, and two years ago, went to Boston, and was doctored there three months, and left off worse than I began, and I was almost discouraged. But I felt that I must do something, for I was obliged to keep my mouth open and my health was becoming impaired. So I went to Fall River last Spring, and placed myself under the care of Dr. Carpenter. His treatment proved highly satisfactory. He removed and cured the Polypus, I can breathe naturally, the Catarrh troubles me very little and altogether I am comfortable and as well as a man 60 years of age can expect to be, and I hope this testimony may be the means of securing relief to other sufferers. I reside in Middletown. ASA PECKHAM

Lawn Mowers.

THE NEW
CHARTER OAK
LAWN MOWER.

It is a model of beauty, very compact, beautifully finished and mechanically made; and, to those desiring a wheel Lawn Mower, we will say that you will find the "CHARTER OAK" far superior to any other of this class of Lawn Mowers, as it is far more durable, easy to adjust, operate, and keep in order, also by its driving wheels being inside of the frames, it enables the operator to cut the grass clean around walks, drives, flower-beds, trees and shrubbery.

We Warrant it in Every Respect.

LAWN MOWERS,
PHOSPHATES, &c.

The subscriber asks attention to the ARCHIMEDIAN as the Standard Mower on the market. The mistake of past years in using SHOES instead of wheels had given it the reputation of a hard working machine. At my suggestion this was remedied last year by substituting wheels, and my large sales in consequence has established it as the most desirable of all. As a horse machine it has no equal, and I can refer to six of our suburbans using them with the confidence of support from them, and as far as I know I sold all that was sold here in 1874. While I make this my standard, I mean that my patrons shall have their choice, and can give them any other kind in the market, and it should be borne in mind that I protect the goods I sell by the facilities for repairing, sharpening, &c., making this a specialty. I am offering good second hand mowers from $5 to $15, and am so prepared to supply the entire trade of the Island at as low prices as in other cities, or as any other dealer.
I would urge the advantage of WILSON'S PHOSPHATE, as a top-dressing for lawns (giving a quick, rich green) as a garden or hot house fertilizer, and can warrant that it is not composed largely of fish guano, worth $12 per ton on the market, or mother earth worth less; once in use it will be as highly appreciated for the above purposes as by our farmers who buy it by the ton as an economical manureal investment. Five tons more on hand this day, with bone and other fertilizer constantly in stock. The season is cold and late, worms will be hungry, help the crops and they will you.
CORCORAN'S SELF-REGULATING WINDMILL, For Pumping or driving machinery, up to forty horse power. Especial attention is called to this power as superior, and an economical saver of labor, with reference to Col. George E. Waring, Philip Caswell, Esq., and George P. Lawton, of Newport, using them. It is appropriate for the purposes of pumping for dwellings, barns and green houses, so turning our coast breezes to mechanical utility while it invigorates our health as well. Please call on us at
